

Sample Document for Docling

This is a sample text document that you can convert to PDF for testing Docling.

Section 1: Introduction

Docling is a powerful document processing tool that simplifies parsing diverse formats and provides seamless integrations with the gen AI ecosystem.

Section 2: Features

- PDF parsing
- Markdown conversion
- Table extraction
- Image processing

Section 3: Example Table

Feature	Description
PDF parsing	Extract text and structure from PDF documents
Markdown conversion	Convert documents to markdown format
Table extraction	Identify and extract tables from documents
Image processing	Process and analyze images within documents

Section 4: Conclusion

This sample document demonstrates how Docling can convert a simple PDF to markdown, preserving headings, lists, and tables.

Instructions: 1. To convert this text file to PDF, you can use various tools: - Print to PDF from a text editor - Use online converters - Use command-line tools like pandoc: `pandoc sample_text.txt -o sample.pdf` 2. Once you have the PDF, you can use it with the Docling examples.
